Dear Mr. Harward,

The Utah Valley Home Builders Association (UVHBA) appreciates the work and effort you have dedicated to clearly identifying some feasible steps to completing progress on satisfying some of the transportation issues affecting the residents and travelers of Utah County.

The members of the UVHBA participate in the planning and construction of beautiful homes, neighborhoods and communities in this county and are continually working for this end. As our community grows in residents, all parties will have to strive to find resources and creative solutions to satisfy the transportation needs of our citizens.

Best Regards,

Caroline Merrill  
Executive Officer
